Summary

Aspiring SOC Analyst and Master's student in Cyber Security and Machine Learning (Ovidius University '27), with hands-on experience in network defense, vulnerability scanning, Linux/Windows environments, and secure software development.

Experience

Cybersecurity & DevOps Internship Dec 2025 – June 2026

Altair Soft / Ovidius University of Constanta *Constanta, Romania*

- Performed vulnerability assessments using Nmap, OpenVAS and Burp Suite, documented findings and recommended remediation measures.
- Collected and analyzed logs with Wazuh, Sysmon and Suricata, monitored security events, and investigated incidents using MITRE ATT&CK and the Cyber Kill Chain.
- Used OWASP ZAP and Semgrep to identify application vulnerabilities and integrated security checks into GitLab CI/CD pipelines.

Projects & Hands-on Training

Cybersecurity Labs

TryHackMe (SOC Level 1 Path)

- Practiced alert investigation with Splunk, Elastic Stack and Snort and mapped threats to MITRE ATT&CK.
- Analyzed PCAPs and network traffic with Wireshark to identify suspicious activity.
- Investigated simulated phishing emails and extracted indicators of compromise (IoCs).

Planora Web Platform June 2026

Graduation Event Platform with an AI Chatbot | Python, FastAPI, React

- Built a graduation-event platform with an AI chatbot to interpret user requirements and assist with package bookings.
- Created the interface with Tailwind CSS and integrated Stripe payments.
- Developed an administration panel for users, packages and reservations.

SmartAutoBid Web Platform Oct 2024 – July 2025

Bachelor's Thesis Project | Python, Django, SQL, HTML/CSS

- Developed a car-auction platform with vehicle listings, filtering and real-time bidding.
- Built the Django/MySQL backend with authentication, session management and data validation.
- Added vehicle price estimation using linear regression and an administration panel.

Technical Skills

- **Cybersecurity**: Wazuh, Sysmon, Suricata, OpenVAS, Burp Suite, OWASP ZAP, Semgrep, MITRE ATT&CK
- **Networking**: Wireshark, Nmap, Cisco Packet Tracer
- **Systems & DevOps**: Linux, Windows, Docker, Kubernetes, Git, GitLab CI/CD
- **Programming & Web**: Python, JavaScript, HTML/CSS, Django, FastAPI, React, Tailwind CSS
- **Databases**: SQL, MySQL, PostgreSQL, Oracle
- **Machine Learning & Data Analysis**: Scikit-learn, TensorFlow, NumPy, Pandas

Education

"Ovidius" University of Constanta Oct 2025 – Present

Master of Science in Cyber Security and Machine Learning *Constanta, Romania*

- Faculty of Mathematics and Computer Science

"Ovidius" University of Constanta Oct 2022 – July 2025

Bachelor of Science in Computer Science *Constanta, Romania*

- Faculty of Mathematics and Computer Science

Competitions, Events & Volunteering

Hack A Ton — Powered by Ambasada June 2026
Participant *Mamaia, Romania*

- Presented *Graduation Concierge*, an AI assistant, during a 48-hour hackathon.
- Developed a working full-stack prototype using Python, FastAPI and React in a team of three.

Cyber Security Ovidius Camp – 4th Edition June – July 2026
Participant *Constanta, Romania*

- Attended a cybersecurity summer school organized by Ovidius University with partner universities from Brasov, Iasi and Bucharest, the National Cyberint Center and DNSC.
- Took part in sessions led by representatives of the FBI, US Embassy Bucharest, Brandefense, Cyrisma, ITLAB, Inky and Vonahi.

Ovidius University of Constanta 2022 – 2023
Volunteer *Constanta, Romania*

- Assisted in organizing university events and developed strong teamwork and communication skills.

Languages

- **Romanian**: Native
- **English**: B2

Certifications & Training

SOC Level 1 Learning Path (Certificate of Completion) – TryHackMe October 2026

Microsoft Certified: Azure Fundamentals (AZ-900) – Microsoft July 2023
